In 2005, the NBCC Board of directors created the NBCC Foundation, a nonprofit corporation to generate resources to advance the counseling profession. The NBCC Foundation Trustees have identified two target areas: enhancing professional counseling services to under-served and never-served populations, and fostering communication and collaboration globally.

NCCs are invited to support the NBCC Foundation in its public service goals by making a tax deductible donation. **One hundred percent** of the contribution will support direct counseling program benefits as all administrative costs are covered by other funds. The trustees are dedicated to maximizing the value of donations to help the disadvantaged and minimize any expense that does not directly enhance counseling services.

To make a donation, please complete the information below and **include this statement with your bill form in the envelope provided.**

1. First Name and Middle Initial:

Last Name:
