### **Jalesah Brooks Awarded \$11,000 Counseling Fellowship From NBCC and Affiliates**

Hamilton, NJ—The NBCC Foundation, an affiliate of the National Board for Certified Counselors (NBCC), recently selected Jalesah Brooks, of Hamilton, New Jersey, for the NBCC Minority Fellowship Program-Addictions Counselors (MFP-AC). As an NBCC MFP-AC fellow, Brooks will receive funding and training to support her education and facilitate her addictions counseling service to underserved minority transition-age youth (ages 16–25).

The NBCC MFP-AC is made possible by a grant awarded to NBCC by the Substance Abuse and Mental Health Services Administration (SAMHSA) in September 2014. The Foundation is contracted by NBCC to administer the NBCC MFP-AC, as well as training and collaboration activities, such as [webinars](#), that are open to all National Certified Counselors (NCCs). The goal of the program is to reduce health disparities and improve behavioral health care outcomes for racially and ethnically diverse populations by increasing the available number of culturally competent behavioral health professionals.

The NBCC MFP will distribute up to \$11,000 to Brooks and the 29 other master's-level addictions counseling students selected to receive the fellowship award. Brooks is a graduate of Rutgers University, in New Brunswick, New Jersey, and is currently a master's student in the school counseling program and student assistance coordinator certificate at The College of New Jersey, in Trenton. Upon graduation, Brooks intends to work with high school students who reside in underserved areas. Earning this fellowship will help her to further develop her counseling and advocacy skills, and learn evidence-based practices that will allow her to implement prevention and intervention programs that will better serve underserved student populations.

The Foundation plans to open the next NBCC MFP-AC application period in September 2016. To learn more about the NBCC MFP and its fellows, please visit [www.nbccf.org](http://www.nbccf.org).
